

common/common_Socket.h

```
graph TD; A[common/common_Socket.h] --> B[string]; A --> C[netinet/in.h]
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'common/common_Socket.h', has two arrows pointing downwards to two separate boxes below it. The left box is labeled 'string' and the right box is labeled 'netinet/in.h'. This indicates that the 'common/common_Socket.h' header file includes both the 'string' header and the 'netinet/in.h' header.

string

netinet/in.h
